

## Onsite Estimate

Doing an estimate over the phone is fine if you know exactly what you want moved.

We can come to your home or office to do a visual onsite estimate at no extra charge. This helps you to better determine what you want us to move.

Please make sure to inform us of any special circumstances that we may encounter at the drop off, stairs, elevator, long walks, or multi-level floor plans.

Also know what you want us to do, take a minute or 2 before we arrive and inspect your home for any hidden items that may get overlooked during our visual inspection.

The more we know the more accurate a quote we can give you.

Please feel free to give us a call if you have any other questions.
